Outline

- **What is a branch?**
- **Creating a branch**
- **Switching**
- **Merging**
- **Conflicts**
- **Tagging**

What is a branch?

# Branching basics

- **Can branch from any point in the code**
- **Branches don't have to merge back**
- **Branch = copy (cheap copy)**

Reasons for branching

- **Branch for a feature**
- **Branch for a release**
- **Branch for different version**

Summary

- **What is a branch?**
- **Creating a branch**
- **Switching**
- **Merging**
- **Conflicts**
- **Tagging**
